New Seaview Construction: Lot 69

Seaview is delighted to introduce Patrick and Sandy Rogers and their sons, Bradley and Luke

Patrick is with Rocket Lab at NASA and is a Logistics Specialist and Launch Tech at Wallops Island. When we see the excitement of the launch across the marsh, Patrick has helped make that possible. According to Darrell Etherington at “Tech Crunch” and Bloomberg Business Week,

“Rocket Lab’s launcher is a finely crafted and engineered supercar!” in the field of rocket technology. Well done, Patrick!

Sandy has been a Special Education Teacher at Accomack Elementary School for over 15 years. Bradley is in the 3rd grade and Luke is in kindergarten. Both boys love going in the Seaview boat to Metompkin Island, fishing off the dock and riding bikes.

Issues & Discussions

- All Members should be given the opportunity to fully express their ideas and hopes for Seaview's progress.
- An Annual Meeting is necessary for full discussions.
- Payment of individual dues is required for your vote to count.

Any other concerns, please email: jmcgcla39@gmail.com

Thank you to all those who have returned proxies to Julie McGowan. The prosperity of Seaview and the inclusion of all Members is our primary goal.
